GETTING STARTED

- 1 Set up your Sega Saturn system by following the instructions in the Sega Saturn Instruction Manual. Plug in Control Pad 1. For 2-player games, plug in Control Pad 2 also.

Note: Bust-A-Move 3 is for one or two players.

Place the Bust-A-Move 3 disc, label side up, in the well of the CD tray and close the door.

- 2 Turn on the TV or monitor and the Sega Saturn. The Sega Saturn logo will appear on screen. If nothing appears, turn the system off and make sure it is set up correctly before turning it on again.
- 3 If you wish to stop a game in progress, or if the game ends, press the Reset Button on the Sega Saturn console to display the on-screen Control panel.

Important: Your Sega Saturn compact disc contains a security code that allows the disc to be read. Be sure to keep the disc clean and handle it carefully. If your Sega Saturn system has trouble reading the disc, remove the disc and wipe it carefully, starting from the center and wiping straight out toward the edge.

HOW to PLAY

Simplicity is one of Bust-A-Move 3's best qualities. No matter which game mode you're in, the same basic rules apply. But just because it's simple, don't assume it's easy.

BURSTING BUBBLES

Fire a bubble from the launcher, and connect it to two or more bubbles of the same color. These bubbles will burst.

DROPPING BUBBLES

Bubbles suspended by those burst will also be cleared. The larger the cluster cleared, the more points awarded.

END GAME!

The object of the game is to burst as many bubbles as you can. After each shot, the bubbles that remain descend, one level at a time, toward the Deadline. The game ends when the last bubble crosses the Deadline.

SPECIAL BUBBLES

STAR BUBBLE

This bubble will clear all those in the cluster the same color as the bubble touches it.

RAINBOW BUBBLE

This will become a normal bubble the color of those burst adjacent to it.

CANNONBALL

This heavyweight destroys every bubble in its path, all the way to the top of the screen.

BLOCK

These pieces cannot be broken, but they needn't be cleared to end a round.

OBSTACLE BLOCK

This block is cleared only when all the bubbles touching it are burst. A round cannot be cleared while Obstacle Blocks remain.

RANKING			VS CPU

2 ND	5 ^R	10000	ABC
3 RD	4 ^R	5000	DEF

5 TH	2 ^R	500	JKI

High Scores will be logged in the Hall of Fame. Scroll through the letters with the Control Pad, and press the A button to make your selection.

CHARACTERS

You might recognize Bust-A-Move 3's cast of characters from other popular arcade games. You can play with or against any of the eight characters. Each has a unique strategic style and pattern you can take advantage of in head-to-head confrontations.

RED YELLOW GREEN BLUE ORANGE WHITE PURPLE RAINBOW STAR BLOCK

BUBBLEN
PUZZLE GAME
CHARACTER

Y W R P O G B
 **ATTACK PATTERN** 

Bubblen is back and ready for more! The wide array of bubbles he sends makes him a well-rounded player.

PURICHIO
CRANE GAME
CHARACTER

Y G B P B G Y
 **ATTACK PATTERN** 

Purichio knows how to endure. Often her foes are too busy digging their way out to focus on an attack.

CHINKLE
QUIZ GAME
CHARACTER

      
 **ATTACK PATTERN** 

Chinkle definitely forces her opponent to think. The Rainbow Bubbles she sends are a serious headache for her opponents.

MUSASHI

ACTION GAME
CHARACTER

The action never stops with Musashi! The bubbles he sends to his opponent come from the top, as well as the bottom. Which way is up!?

MARINA

MAH-JONG GAME
CHARACTER

It takes a lot of luck to beat Marina, another well-balanced character. She swarms her foes unless they come up with a blue one in the clutch.

LUNA LUNA

TAROT GAME
CHARACTER

The future is grim for anyone facing Luna Luna. All the bubbles she sends come from above. So much for the light at the end of the tunnel!

S.S.B.

PUNCHING GAME
CHARACTER

Super Sonic Blastman delivers devastating one-two combinations. Just when your opponent finds an opening, he throws up a block.

JACK

CARD GAME
CHARACTER

Playing against Jack is certainly a gamble with all the Special Bubbles she deals. She is probably the most formidable offensive character.

ARCADE MODE

In Arcade Mode, you'll advance as far as you can through puzzles of increasing difficulty. Play against the clock, match wits with other game characters in the arcade, or challenge another player.

Game Select

Choose either a One Player game, a One Player vs. the Computer game, or a Two Player game. Selections on these menu screens are made with the Control Pad and A Button.

Difficulty

In Practice Mode, the Sight Line is activated to help you see a bubble's trajectory. The game's default setting is Normal, although the computer plays more aggressively in Hard. In Single-Player Mode, Version 2.5's puzzles are more complicated.

Character Select

Choose your character for head-to-head play, based on their special Attack Patterns.

ONE PLAYER

This is the essence of Bust-A-Move 3: just you against the puzzle. No distractions, and no one to blame when time runs out. Don't worry, you can always press Continue!

Course Selection

In Single-Player Mode, you'll plot your course through the alphabet to increasingly difficult puzzles. Each lettered level has five rounds to clear before you can advance to the next level. Use Left and Right on the Control Pad to choose your course. The Up and Down keys change your character. Press A to start your game.

Speed Rounds

Speed Rounds are identified by small characters circling the levels letter. During these stages, opaque bubbles continually advance at a rapid rate to replace the ones you've cleared. Measure your progress on the level's meter; the stage is cleared once your character has reached the top.

ONE PLAYER VS. THE COMPUTER

Once you've honed your skills in Single-Player Mode and you're looking for a new challenge, enter the arcade itself and face the game masters!

Know Your Foe!

After getting started, you'll move from machine to machine in the arcade, going head-to-head with a different mascot. Each has particular strengths and weaknesses, so be wary! How you do will depend a lot on the character you've chosen to play with. Can you get far enough to reveal the identity of the mysterious Wizard?

You'll get to see a different ending with each character you finish with!

TWO PLAYERS

Time to show you can dish it out as well as you take it! Settle grudge matches between masters, or give novices a fighting chance by pairing them with one of the stronger characters. For even more fun, play with Special Bubbles in Variety Mode.

Burst Their Bubble!

Sending large quantities of bubbles to your opponent is clearly the key to victory. The more bubbles you burst or clear in one shot of the launcher, the harder you make it for your foe. Setting up a big shot is usually worth it, but be careful: Your opponent may be one step ahead of you!

You can start Two-Player Mode while in Single-Player Mode by pressing Start with Player 2's controller!

CHALLENGE MODE

Test Your Mettle

To find out how good you really are, try your luck in The Challenge. You and your character will face five levels of rigorous testing. Clearing the board isn't always enough; your ability to make trick shots and large combos will also be evaluated. Don't worry: You'll be able to continue even if you can't clear a level.

Making the Grade

Once you've completed The Challenge, a statistics screen will tell you how you did. It logs the number of bubbles you used and cleared, and it rates your speed, technique, and strategy.

From the bizarre to the mundane, there are puzzles here for everyone. Left and Right keys on the Control Pad let you navigate through the index letters; Up and Down keys allow you to scroll through the selections.

There are over 1025 different puzzles to keep you busy!
